Presidents Message

Hello dear friends and fellow WGM Members:

Well if you have not heard, Hades has moved to Phoenix. We have set grueling records for heat here and I suppose someone (me) had to stay home and experience it while others "played" all summer. Word has it the Larry and Carol Hall was unable to make their greatly anticipated trip to Alaska as Carol fell ill. All is well with them and they spent the summer bouncing to friends and family instead. More news is that we have picked up some new members over the summer and we welcome them to our club. And even more news, we as a club have made our first thrust into the World Wide Web with a small effort at having a web site dedicated to our mission. Please visit this site and let me know what you think. Find it here

<https://sites.google.com/site/westerngmcoach/home>

I want to say to all that it is time we made a concerted effort to the digital world as another way to reach those that may not know how to find us in any other way. Please enjoy and have fun with this effort. And shhhh.....we can be found on Facebook but it has only a fledgling effort so far. Well until we meet on the asphalt highway or the internet super highway, good life, good fun and good Busing.

Yours,

Charlie McDaniel, WGM President

Please be safe and let me ask you, have you hugged your bus today?

New Members
